SmartWasher®
BIOREMEDIATING parts washing system

**SmartWasher® MOBILE HEAVY
WEIGHT PARTS WASHER START UP
PACK**

Pack contains: 1 x SW37 parts/brakes washer, 5 x parts washer degreaser 20l, 3 x FL-4 Smart filter pad 4 pack. 454Kg load capacity, interchangeable brush capability, adjustable thermostat, rugged construction for demanding jobs, sleek, modern appearance **with FREE Weber Q1000 BBQ from 1/2/2020 - 31/3/2021**

This Bioremediating Parts Washing System is both **self cleaning** and **environmentally friendly**. It uses a pH neutral cleaning fluid called OzzyJuice which effectively cleans parts removing grease and grime naturally while the bioremediation process cleans the fluid.

Bioremediation is the use of microbes to break down and "eat" oil, grease, and carbon-based contaminants. This proven biotechnology is used to assist in the clean-up of wastewater treatment ponds and lagoons in petroleum refineries and industrial manufacturing facilities all around the world. Maintain the unit properly according to the operating instructions and you should never need to take away dirty parts cleaning fluid again! Easy on your skin, no strong solvent smells - great for you and for the environment

BORDO METRIC DELTA POINT M2 HSS JOBBER DRILLS

Delta Point drills have a multi-faceted cutting tip. Delta Point tip design is a revolutionary re-think of drill tip function. The overall length of the cutting edge significantly exceeds that of conventional drills. This means more edge doing the cutting & the results are simply extraordinary. Drilling times for a range of split point & Delta Point drills consistently showed that Delta Point bits were twice as fast in mild steel and during independent lifetime testing Delta point drill bits averaged 609 holes in 20mm mild steel, ten times more holes than split point drills.
